

## Stack Overflow Trivia: Questions, Answers, and Facts

### Printable Trivia Pack

Stack Overflow trivia highlights the history, milestones, and quirks of the question-and-answer platform that has helped programmers solve coding problems since 2008. Created by Jeff Atwood and Joel Spolsky as the flagship site of the Stack Exchange network, Stack Overflow grew into one of the internet's most recognizable resources for software developers.

#### HARD STACK OVERFLOW TRIVIA

1. When Stack Overflow was first publicly announced in 2008, what development status was it still in?

Answer: It was still in beta.

2. Within the Stack Exchange network, what distinction did Stack Overflow hold at the beginning?

Answer: It was the earliest flagship community.

3. Before co-founding Stack Overflow, Jeff Atwood was especially known for which programming blog?

Answer: Coding Horror

4. Joel Spolsky had already founded which software company before helping create Stack Overflow?

Answer: Fog Creek Software

5. Which long-running software blog was written by Joel Spolsky?

Answer: Joel on Software

6. On Stack Overflow, much of community moderation depends on what users earn over time?

Answer: Privileges

7. A higher-reputation Stack Overflow user can help shut down an unsuitable question by casting what kind of vote?

Answer: A close vote

8. If a question was closed but later judged acceptable, what vote type can sufficiently privileged users cast to reverse that status?

Answer: A reopen vote

9. What special status can be applied to a Stack Overflow question to limit answers from low-reputation users?

Answer: Protected question status

10. Which Stack Overflow feature lets a user put reputation on the line to draw stronger answers to a question?

Answer: A bounty

11. On the interface, a Stack Overflow bounty appears attached to a question in what form?

Answer: As a reputation amount

12. If you want an official bulk release of Stack Overflow content through the broader network, what should you look for?

Answer: The public data dump

13. Historically, Stack Overflow content has been shared under what licensing family?

Answer: Creative Commons

14. When a question is off-topic on Stack Overflow but suitable on another Stack Exchange site, what process can send it there?

Answer: Migration

#### FUNNY STACK OVERFLOW TRIVIA

1. What blunt old-school tech phrase is often associated with internet culture, even though it was never an official Stack Overflow slogan?

Answer: RTFM

2. Which programmer excuse-joke sounds like a tiny victory speech after a bug refuses to appear anywhere else?

Answer: works on my machine

3. On Stack Overflow, which badge has the most undead energy because it jokes about reviving an old thread?

Answer: Necromancer

4. What Stack Overflow badge humorously celebrates the kind of visit streak that says, "I live here now" ?

Answer: Fanatic badge

5. Which classic programming reply is famous for sounding helpful and evasive at the exact same time?

Answer: it depends

6. The name "Stack Overflow" is a pun on what kind of real thing in programming?

Answer: a programming error

7. What joking role does Stack Overflow play when a programmer forgets syntax they absolutely knew yesterday?

Answer: their second memory

8. Which little symbol on Stack Overflow is often treated like the closest thing debugging gets to a fairy-tale ending?

Answer: the accepted-answer check mark

9. What habit do developers joke about doing first and understanding second when they find a promising Stack Overflow snippet?

Answer: copying code

10. According to a common meme, what are programmers likely to search on Stack Overflow word-for-word when panic hits?

Answer: an error message verbatim

11. What did Stack Overflow's reputation system famously turn into a programmer status symbol?

Answer: internet points

12. True or false: Some Stack Overflow badge names use playful language instead of sounding completely formal.?

Answer: True

13. Which famously friendly beginner program keeps popping up in Stack Overflow references like programming's favorite icebreaker?

Answer: Hello, World!

#### FUN STACK OVERFLOW TRIVIA

1. What annual Stack Overflow tradition asks developers around the world to weigh in on their tools and work lives?

Answer: The annual Developer Survey.

2. If you open a Stack Overflow survey report hoping to see which coding tools people adore most, what kind of favorites are commonly tracked?

Answer: Developers's favorite technologies.

3. Stack Overflow survey charts often become a scoreboard for what broad coding topic?

Answer: Popular programming languages.

4. When a mysterious error message sends a coder to a search engine, Stack Overflow has long been a common sight in what place?

Answer: Google search results.

5. True or false: Many Stack Overflow page links include a number that identifies the specific question.?

Answer: True

6. What badge sounds like it was invented by a wizard and is awarded for reviving an old question with a highly scored answer?

Answer: Necromancer badge.

7. Which Stack Overflow badge rewards users for showing up on many consecutive days?

Answer: Enthusiast.

8. If Enthusiast is the warm-up act, what badge marks an even longer Stack Overflow visit streak?

Answer: Fanatic.

9. Which badge goes to someone whose question was well received and who also accepted an answer?

Answer: Scholar.

10. A Stack Overflow answer that climbs to a vote threshold can earn what pleasantly named badge?

Answer: Nice Answer.

11. What badge can a question earn on Stack Overflow after reaching a vote threshold?

Answer: Nice Question.

12. What visual helper makes many Stack Overflow code examples easier on the eyes by coloring code structure?

Answer: Syntax highlighting.

13. Want to point someone somewhere useful inside a post? Stack Overflow lets users embed what?

Answer: Hyperlinks.

#### STACK OVERFLOW FAMILY TRIVIA

1. If you want to look up a programming problem that someone may have already solved, what can you do on Stack Overflow?

Answer: You can search Stack Overflow for solved programming problems.

2. On Stack Overflow, can one question receive more than one reply from different people?

Answer: Yes, a Stack Overflow question can have multiple answers.

3. Who gets to choose the accepted answer on a Stack Overflow question?

Answer: The person who asked the question can accept one answer.
